

## CPCS Tests—Special Offers

If you operate, or wish to operate plant on UK construction sites, your employees need CPCS cards. Rand Training are a leading provider of plant training and an accredited CPCS test centre.

Some test centres will take your money and put you through the test, charging you whether you pass or fail. Our objective is to see you succeed in your test and we therefore assess all our candidates' existing competence levels and provide tailored pre-test training as required. So confident are we of this approach and of our trainers' capabilities that **WE OFFER FREE RE-TESTS\*** in the event of a candidate failing to pass first time.

The Summer months can be a quiet time for plant training, so we are currently running a number of promotions which offer very competitively priced packages, including:

- Free Initial Assessments**
- Free Health & Safety touch screen tests (where required)**
- New customer introductory offers**
- Existing customer loyalty discounts**
- Bulk buy discounts**

Pre-test training can be arranged out of normal working hours in the evening or at weekends to minimize disruption to your working day. All tests are carried out at our purpose-built facility near Lincoln. \*Free re-tests are available when the pre test training has been carried out by Rand Training Ltd.

To take advantage of these offers please call Mel or Faye at Rand Training on 01673 859240, or e-mail [enquiries@randtraining.co.uk](mailto:enquiries@randtraining.co.uk) for further information, quoting promotional code RT250. Special offers are available until 30/09/11.
